As many of our citizens as possible should attend the grand ratification meeting in Columbia on the 7th September. Reduced round trip tickets over the G. & C. R. R. will-probably be sold.

Some of our business men whose opin-ions are worth something think our cotton receipts will reach 20,000 bales this season. There is certainly no reason known to us why they should not.

The order and general behavior of the immense crowd was remarkably good, not a single disturbance occurring during the day, as far as we have bessed. The preaching of the consion was fine, and largely attended.

Improvements in the management of the Greenville & Columbia Railroad are still going bravely on, to the gratification of its patrons and the public generally. We understand that on the 1st September a fine passenger train with air breaks and all of the conveniences and comforts for passengers usually found on a first-class road, will be put upon the Andersoc Branch and Blue Ridge Division, the object of which is to make close connection at Seneca City with the western bound day passenger train on the Air Line Road. This will greatly increase the travel over this line, as it will make the time between Charleston and Atlanta, Ga., and all points west of that place, about six hours shorter that over any other route. The great bulk of travel between these two points now goes by the way of Augusta, but as soon as the proposed change is made it will naturally change to this line on account of the great saving of time, which, to the traveling public, is always an important consideration. This will give Anderson and the other towns on this section of the G. & C. R. R. all that could be wished in the way of railroad accommodations. In addition to this improvement we lear a also that there will be put upon the main line a through night freight, which will carry a passenger coach.

The Williamston Meeting.

The Williamston Meeting.

The meeting at Williamston on last Thursday was quite a success for the present time of inactivity in politics. There were from four to six hundred persons present and the best of order prevailed throughout the entire day. Dr. H. I. Epting, President of the Williamston Club, presided over the meeting, and after an eloquent introducity address he introduced as speakers for the morning Messis. R. W. Simpson, E. B. Murray and E. M. Rucaer, and in the afternoon Messis. D. Wyatt Alken and Jas. L. Orr. The speeches were good, and though very little enthusiasm was exhibited, the attention was excellent.

The result of this meeting is bound to affect much good for the party organization in the Courty as other Clubs are already arranging for large local mass incetings.

After the speaking, arrangements were made to form a large mounted club to attend the meeting on the 9th of September at Anderson.

The Radicals of Oconee County held another Convention on Thurriay last, the object of which was to elect delegates to the State, Congressional and Judicial Conventions. Bill Parker, the Radical County Chairman of Anderson County, was in aftendance, and from a communication to the Columbia Register we learn took quite an active part in the proceedings.

The meeting was called to order by M. H. Brice, County Chairman, and after declaring Dimesil's elected permanent chairman upon a motion to elect "a chairman," proceeded to settle the question as to which of two contesting delegations were entitled to reats in the Convention. A committee was appointed to report upon the matter, and upon submitting their report recommunded that half of each delegation he scated. This was objected to by one of the contesting delegates, who declared that if a part of them were turned out they would all go to hell together. Here the confusion became so great that Bryce, the Chairman, was poweriess to command order, and Bill Farker, from Anderson, came forward and assumed the chair to quell the violence threatening, but even his thundering voice met the same fate as the former. Still the confusion became greater and greater, many angry negroes being on the floor at ones. Finally one young and stout negro gave a blow to the appointed sergeant at-arms, when the two parties began to concentrate their furces, gathering close together. Bill, the Anderson negro, and by the way, a preacher, and another preacher raised one or those good of hymns, and then we had oursing, awearing, figt. Ing and music all in one scene. But the good of music half the desired effect, and the chair announced the house ready for business. One party declared "this is not a legal meetin' no how," and so or for about two and a half hours, when the proposition for a compromise was accepted. Bill, above ranned, was chosen permanent Chairman, and, at this, Bryce was so aggrieved that he thought proper to leave the house. As he left many of the negroes railed on him to go

At a meeting of the Belton Club Friday evening, August 20, the following preamble and resolutions were adopted:

Whereas, the voters of this community wish to know the sentiments of those who are now, or may hereafter become, candidates for the Legislature; and whereas the masses desire the State and County governments administered upon a strictly economical plan, they having passed through a long period of high and oppressive taxation, and having by a hardstruck expelled from power a set of secondrels who had been extorting from them their earning, and naving determined that such a state of affairs shall not be brought about again by any party or set of men, be it.

Resolved, That the people of this community request that each and every candidate for the House of Representatives express his sentiments in a card through the County papers, so that every man may know whom to vote for at the primary election, and whom to reject.

2. That to claim to be a Democrat is not of itself sufficient, but we wish to know whether or not they favor high taxes or low taxes, and whether they favor the support and building of railroads and other such enterprises by a tax upon the people.

DANIEL PRATT CIN CO.S

COTTON GIN, FEEDER & CONDENSER

As THE GINNING SEASON is about to commence, it would be to the interest of all who expect to carry on the Ginning business to be careful in this selection of the test machine. It was our object when we started the Gin business to sell the hear Gin made in the United States, and we claim that we have succeeded.

Our PRATT GIN is equal to all, and far superior to many dins now-heing offered for sale. We never make a sale without a guarantee of period satisfaction, and stain nothing for the Gin that we cannot fully substantiate.

As we are engaged largely in Cotton Buying, as well as the Concral Merchandica business, it is to our interest that every Ginner should use the best Gin. We have bought the past season about 4000 bales of Cotton which was ginned on the Pratt Gin, and in every instance it brought the highest prices.

From the many certificates in our possession we are gratified with the results, and refer you to the following named gentlemen, who are now using the PRATT GIN, and shout their decision:—
